3. The Compliance System is made up of all of the rules, formal procedures and significant actions intended to ensure the Company’s conduct in accordance with ethical principles and applicable law and to prevent improper conduct or conduct that is contrary to ethics, the law or the Corporate Governance System that might be committed by the professionals thereof within the organisation.
4. The Unit shall be governed by the provisions of these *Regulations of the Compliance Unit* (the “Regulations”) and the other rules forming part of the Company’s Corporate Governance System.
5. The creation of the Unit should be understood to be without prejudice to the existence at each country subholding or head of business company of the group of which the Company is the controlling entity, within the meaning established by law (the “Group”), of its own compliance division specifically responsible for its own crime prevention programme.

TITLE II. COMPOSITION

Article 2. Composition and Positions

 - the members of the Unit, who shall be proposed by the global business units and the corporate functions.

Pursuant to the provisions of the Corporate Governance System, particularly with respect to decentralisation of the effective management of the businesses of the Group and the corresponding individualisation and separation of responsibilities arising therefrom for each of the companies included therein, those persons who head the compliance divisions of the country subholding or head of business companies of the Group may not form part of the Unit. The members of the Board of Directors may also not form part of the Unit.

Once a grievance has been accepted for processing, the Unit shall appoint an investigating officer to carry out the investigation and process the file, and may also entrust this work to an external investigator pursuant to the provisions of article 25.2 above. If the report is directed towards a member of the Unit, such member may not participate in the processing thereof.
2. If the report affects a member of the Board of Directors, the chair of the Unit shall inform the secretary of the Board of Directors to this end in order for the secretary to assist the chair in the processing of the investigative file, and specifically to select the investigating officer, who shall be a person from outside the Group to guarantee independence.
3. The investigating officer shall verify the truth and accuracy of the information contained in the grievance and, in particular, the reported conduct, with respect to the rights of the affected parties. For such purposes, it shall establish a hearing procedure for all affected parties and witnesses to be heard and shall conduct such other proceedings as it deems necessary. All professionals of the Group are required to cooperate faithfully in the investigation. The participation of witnesses and affected parties shall be strictly confidential.
4. The investigation shall follow the provisions of the *Investigations Manual* approved by the Unit, and all affected parties shall be informed regarding the processing of their personal data, and any other duty imposed by law on the protection of personal data shall also be complied with.
5. In all investigations, the rights to privacy, due process and the presumption of innocence of the persons investigated shall be guaranteed, and all measures shall be taken that are required to avoid any kind of retaliation against the complaining party. The Group undertakes not to engage in any direct or indirect retaliation against professionals that have complained about improper conduct that can be investigated by the Unit, unless they have acted in bad faith.
6. At any time during the proceeding, the Unit and the investigating officers may seek the advice and cooperation of the Finance and Resources Division and of the Legal Affairs Division for purposes of determining the consequences and manner to proceed with respect to any grievance.

Article 27. Resolution of the Investigative File

If it is an improper act or act in violation of legal provisions or the rules of the Corporate Governance System that affect a member of the Board of Directors, the Unit shall submit the resolution to the Appointments Committee through the secretary of the Board of Directors for application of any of the measures provided for in the Corporate Governance System, the adoption and content of which shall be reported to the Unit.

4. If it is verified that a breach of the Corporate Governance System has occurred that is not covered by the section 2 above, the Unit shall adopt the measures that it deems appropriate.
5. If the result of the investigative file reveals the possible adoption of legal actions, the Unit shall give notice of the actions to the Legal Affairs Division for purposes of commencing the relevant governmental or court actions in each case, of which the Unit must be informed.

6. If the improper conduct or violation might have a material impact on the financial statements or internal control of the Company, the Unit shall give notice of this fact to the Internal Audit Area.

Article 28. Protection of Personal Data

1. In certain instances, the sending of personal information through the Ethics Mailboxes may, depending on the subject matter of the report, require the acquisition of express and unambiguous consent for the processing of the personal data of the person submitting the grievance, as well as the party reported. For such purpose, the required mechanisms shall be furnished to obtain any necessary consent prior to the commencement of actions, upon the terms required by the law on personal data protection.
2. As a general rule, the reported party shall be informed of the existence of a report when the investigating officer for the proceeding commences the investigation proceeding. However, in those cases in which there is a significant risk that such notification may jeopardise the ability to effectively investigate the allegation or to gather the required evidence, such notification to the reported party may be delayed for as long as the risk exists.
3. Persons submitting a grievance through the Ethics Mailboxes must warrant that the personal data provided are true, correct, complete and current.
4. Data processed within the framework of investigations shall be deleted as soon as any such investigation has finished, unless the measures adopted give rise to governmental or court proceedings. Without prejudice to the foregoing, the Company shall keep such data duly blocked during those periods in which any liability may arise from the reports filed by Group professionals or from the steps taken by the Company.
5. Users of the Ethics Mailboxes may at any time, in accordance with the law applicable in each case, exercise the rights of access, rectification, erasure and objection with respect to their personal data by means of written communication addressed to the registered office of the Company, complying with requirements established by the law applicable at any time and specifying the right they wish to exercise.
