

Chairman and proprietary director at Iberdrola México, S.A.

Proprietary director, industrial engineer (UPV, Bilbao). Post-graduate studies in Business Administration (IESE, Madrid).

Married, with three children.

RELEVANT EXPERIENCE:

Energy sector

His present position is managing director of the Liberalised Business at the Iberdrola Group. He is responsible for retail business, power generation and Iberdrola's operations in the energy wholesale market worldwide.

From July 2006 to January 2016 he was the retail director at the Iberdrola Group, responsible for a portfolio of more than 20 million clients in Europe as well as the development and coordination of Iberdrola's global retail business.

He is the chairman of the board of directors at Scottish Power Retail Holdings Ltd., at Iberdrola Generación España, S.A. and at NC Energia S.A., amongst other positions in companies mainly related to the energy business.

He joined Iberdrola in 1994 after starting his career in the engineering and consulting company IDOM.

During his first years at Iberdrola he worked in the Planning and Studies direction and afterwards he was the head of the Power & Emissions Trading department.
